

HARIKRISHNAN N

Sr. Business Analyst · Amazon Prime Video · Trust & Safety

(+91) 9744754654 | harikrishnanz98@gmail.com | Bengaluru, India | linkedin.com/in/harikriz

PROFESSIONAL SUMMARY

Sr. Business Analyst with 6 years of experience building internal tools, data pipelines, GenAI solutions and BI dashboards used daily by real teams. At Amazon Prime Video, built Sentinel - an end-to-end audit platform used by 250+ employees across 10+ workflows, saving 18 analyst-hours per day. Also built a GenAI chatbot on AWS Bedrock, a model accuracy framework used by Ops, Science and Tech teams, and Spark/Redshift ETL pipelines for dynamic risk detection. Targeting BIE roles to automate workflows, build scalable data solutions and deliver actionable insights to business leaders.

SKILLS

- **Languages & Tools:** Python (Flask, automation) · SQL (Advanced) · VBA · Git
- **AWS:** Bedrock · Lambda · DynamoDB · S3 · Athena · Spark · CloudWatch · QuickSight · Redshift
- **Data Engineering:** ETL Pipelines · Airflow DAGs · Spark Jobs · Redshift Clusters · DynamoDB to Redshift sync
- **GenAI:** AWS Bedrock chatbot training · text-to-SQL · guardrail configuration · Athena integration
- **BI & Analytics:** QuickSight dashboards · Lambda HTML reports · AHT/SLA modeling · risk-based sampling · statistical extrapolation

WORK EXPERIENCE

Amazon Prime Video - Trust & Safety

Bengaluru, India

Sr. Business Analyst

June 2022 - Present

PLATFORM ENGINEERING

- Built Sentinel - end-to-end audit orchestration platform (Python + Flask + DynamoDB + Redshift) used by 250+ employees across 10+ workflows, saving 18 analyst-hours/day and reducing manual touchpoints from 30+ to 3.
- Replaced fragmented Excel/Quip/SharePoint ecosystem with a single platform featuring smart queues, blind review, auto comparison engine, Redshift sync, SLA alerts and admin-configurable dynamic forms per workflow.

GENAI & DATA ENGINEERING

- Built GenAI chatbot on AWS Bedrock trained on T&S datasets - outputs natural language answers, SQL queries and downloadable CSVs via Athena; data ingested via Airflow DAGs from central data lake to S3.
- Built Spark + Redshift ETL pipelines with continuous feedback loop - audit outcomes auto-update risk detection thresholds, achieving 30% improvement in critical defect catch rate.

ANALYTICS & BI

- Designed model accuracy measurement framework with statistical extrapolation - central QuickSight dashboard used by Ops, Science and Tech teams as single source of truth for ML model evaluation.
- Delivered QuickSight dashboards and Lambda-generated HTML reports for leadership; resolved 100+ ad-hoc stakeholder analytics requests across cross-functional teams.

Amazon Prime Video - Trust & Safety

Bengaluru, India

Catalog Specialist

March 2022 - May 2022

- Content analysis and classification with 98% productivity and 100% quality in a 40+ member team under strict data governance protocols.

MRF Ltd

Agra, Uttar Pradesh

Operational Assistant

January 2021 - March 2022

- Produced daily MIS reports for senior leadership from operational, inventory and sales datasets via SAP.
- Managed vendor liabilities, inventory reconciliation, stock transfer analysis and statutory TDS/TCS returns.

EDUCATION

- Bachelor of Commerce, Kerala University - S.D. College | CGPA 7.2/10 | 2016-2019 (No Arrears)
- Tally & MS Office Certification, ICAI Chapters Institution | Grade A | 2019-2020
